MANTEL PIECES
OF
THE BETTER KIND

10 EAST 43RD STREET

NEW YORK

Enclosed Are Illustrations of

ENCLOSED are illustrations of *"Mantel Pieces of the Better Kind,"* some of which are reproductions of old ones, while others are specially designed in various periods.

As a designer, I have for many years collected data both in America and abroad on museum pieces, mantels, doorways and wood paneling found in old houses.

Realizing the need of good mantel pieces at a reasonable cost, I am sending out my Brochure to make you acquainted with my designs.

As each mantel is specially made, I am prepared to make alterations to meet any architectural requirements. The plinth blocks or bases can be raised or lowered, or the mantels can be made to fit around the breast of the fireplace; also any mantel that is considered too ornate or too plain can be altered to suit the individual taste.

TDCAT 1920
PAPV03B387

"Mantel Pieces of the Better Kind"

I solicit your criticism and will cooperate with you in making changes you may suggest. I will build special mantels you have designed or if you will send me all the data I will furnish the necessary drawings with estimates.

As there are so many ways of finishing these mantels, the listed prices do not include finishing. Prices of all kinds of finishes and decorative work given upon request.
